

CIRCULAR LETTER Nº 2016-001: OBLIGATION TO CHOCK THE TRUCK

Dear Sirs,

We send this circular to inform you that from 8th. February, we will not allow to use wood instead of chock, when the truck is going to load.

This decision was taken from an audit made by Celsa Barcelona's Headquarter, last December, they took the resolve that wood was forbidden instead of chocks in the operation of load the truck.

Anyway, the icon of chocks appears in the informative panels since years (4)
